PROFESSIONAL SUMMARY

Fourth-year BS Information Technology student seeking an internship to apply practical skills in web development, database management, software testing, and technical troubleshooting. Academic experience includes a multi-role resort management system and a Unity 2D game. Eager to contribute to an IT team while learning from industry professionals.

EDUCATION

Bachelor of Science in Information Technology
STI College Rosario | 2023 - Present | Fourth-year student

TECHNICAL SKILLS

Programming & Web: HTML, CSS, JavaScript, Node.js, Express.js
Databases & Tools: MySQL, MySQL Workbench, Git, GitHub, VS Code
Development & Testing: REST APIs, debugging, functional testing, responsive design, Unity 2D

SELECTED ACADEMIC PROJECTS

Smart Resort Booking System | Full-Stack Capstone Project

- Developed a resort reservation system with customer and staff roles, booking and payment proof workflows, and administrative reporting.
- Worked with Node.js, Express.js and MySQL for backend features and database handling.
- Tested customer, front desk, manager, housekeeping and admin system workflows.

Bakunawa: The Seven Moons | Unity 2D Game Development

- Contributed to gameplay implementation, interface improvements, debugging and testing.
- Used Git and GitHub for source control and iterative project development.

ADDITIONAL STRENGTHS

Problem-solving | Collaboration | Attention to detail | Willingness to learn
